Made in America: our night vision devices are known throughout the world for their quality and durability.

Our commitment to customer service will ensure your satisfaction.

- * Light Weight
- * Water Resistant
- * Head Mountable

Optional Accessories

Hard Case Commercial, USNV 3X Lens, Surefire M1 / IR Flashlight, Camera Adapter 121

The USNV-300 is a highly advanced US made Generation 3 night vision monocular. Its innovative design allows the USNV-300 to be one of the most versatile scopes on the market. The USNV-300 is manufactured with the highest quality components available today. An extremely useful tool for any night vision application, this system features a high-power infrared illuminator with multiple output levels. A high strength bayonet mount on the front lens assembly allows for easy lens interchangeability. A low battery and infrared indicator is fiber optically displayed within the user's field of view. Other optional accessories further enhance the USNV-300's capability to fulfill all aspects of night vision operations. Readily adaptable to the PVS-14 Military headgear, the USNV-300 can serve as a "hands free" mono goggle. Coupled with a camera or camcorder, it further provides an excellent imaging system for nighttime photography and surveillance. The USNV-300 is also capable of accepting a wide variety of high magnification lenses, and our exclusive "P-500" weapon module converts the USNV-300 into a high quality night vision weapon sight. The USNV-300 consistently receives the highest marks from many professionals for its superior design, ease of use and outstanding performance. Ships with unit carry case, manual and batteries.
