3x Magnification
N-Vision SLT™ Technology
High Power Infrared Illuminator
Weatherproof Housing
Illuminated Power & IR Indicators
Integrated Tripod Adapter

NVS3 ships complete with unit, soft carry case, owners manual and 2-Year warranty

Sierra NVS3

Night Vision Viewing System

- * Lightweight
- * Generation 1
- * 3X Magnification
- * SLT Coated Optics

The Sierra NVS3 is equipped with a premium quality 1st generation intensifier tube and powerful infrared illuminator. The unit's precision optics are designed to offer more powerful 3x image magnification and optimized for the best nighttime performance via SLT™ (Super Light Transition) lens coating technology. The special SLT™ lens coating process uses a blend of metal oxides and fluorides, improving light transition while reducing lens surface reflection. This, together with incorporated top-performing image intensifier, ensures the unit to generate exceptionally sharp images at increased distances with reduced to a minimum peripheral distortion. The Sierra NVS3 is ergonomically designed and compact enough for easy handling, storage and portability. The unit comes with a built-in tripod mount for more comfortable long-term observations.
