Light Kit

The PVS-7B is the standard issue goggle supplied to the U.S. Military and its allies. With the use of a single Generation 2+ image tube and a dual eye configuration, the PVS-7B Gen 2+ provides an outstanding performance-to-cost ratio. It features simple user controls and fully automated image tube protection. This system allows the user to have complete freedom of movement while maintaining equilibrium and balance in a hands free application. The PVS-7B also incorporates an infrared illuminator with a momentary and continuous on switching function. Infrared operation and low battery indicators are displayed within the user's field of view. The PVS-7B comes complete with a lightweight, fully adjustable military head strap that allows for comfortable long-term use. A wide range of optional accessories include high magnification lenses, compass, infrared spot/flood lens and helmet mounting bracket. Ships with: Head-mount, Military Soft Case, Demist shield and a Manual.
