*U.S. Night Vision manufactures tactical-grade night vision devices. Our products include goggles, monoculars, weapon sights and night vision devices.*

*Made in America: our night vision devices are known throughout the world for their quality and durability.*

*Our commitment to customer service will ensure your satisfaction.*

LDI's Dual Beam Aiming Laser (DBAL) waterproof system makes it easy to move from a visible daytime laser to an infrared night time laser. A variation of the DBAL system is available with an infrared aiming laser and infrared illuminator. – Complies with MIL-STD-810 – Fits all NATO 1913 and Picatinny rails – Fully adjustable for windage and elevation in precise .4 milliradian – Integrated top Picatinny rail offers a solid mounting point for red dot sights, holographic sights, military style scopes and LDI's OPERATOR (TM) tactical flashlight – Laser system is activated using a positive OFF, ON momentary remote through pressure pad, or continuous on position. – Mounts on all standard Picatinny (NATO 1913) rails – Offset design allows the laser to be mounted behind the front sight cage on AR-15, M-16 and M-4 style rifles – Operates using a single AA battery – Precision glass lens, with LDI's beam shaping technology, produces a high quality nearly round laser point at 100 meters. – Rotary mode switch allows the user to instantly select between the Infrared and visible aiming capabilities or between IR aiming laser and IR Illuminator functions – Standard with a pressure pad switch and rotary ON/OFF switch – Waterproof to 20 meters – Windage and elevation adjustment knobs are protected from impact
