PVS-14, Magnetic Compass, IR
Spot Flood Lens, USNV-IR Spot
Light Kit

The PVS-14 is currently used by the U.S. Armed Forces elite SWAT and Special Ops Units, this monocular includes an IR illuminator, fully adjustable headgear and multi-coated optics. Automatic Brightness Control and Bright Source Protection are standard. Manual gain control allows the user to increase or decrease image tube brightness for best possible image contrast. The most versatile night vision system on the market, the PVS-14 can be used hands-free, weapons mounted, or attached to a camera or camcorder for nighttime photography. Optional accessories include a military helmet mount, illuminated compass, high magnification mil-spec 3x or 5x lenses and weapons mount.
