U.S. Night Vision manufactures tactical-grade night vision devices. Our products include goggles, monoculars, weapon sights and night vision devices.

Made in America: our night vision devices are known throughout the world for their quality and durability.

Our commitment to customer service will ensure your satisfaction.

LDI's Dual Beam Aiming Laser (DBAL) waterproof system makes it easy to move from a visible daytime laser to an infrared night time laser. A variation of the DBAL system is available with an infrared aiming laser and infrared illuminator. – Complies with MIL-STD-810 – Fits all NATO 1913 and Picatinny rails – Fully adjustable for windage and elevation in precise .4 milliradian – Integrated top Picatinny rail offers a solid mounting point for red dot sights, holographic sights, military style scopes and LDI's OPERATOR (TM) tactical flashlight – Laser system is activated using a positive OFF, ON momentary remote through pressure pad, or continuous on position. – Mounts on all standard Picatinny (NATO 1913) rails – Offset design allows the laser to be mounted behind the front sight cage on AR-15, M-16 and M-4 style rifles – Operates using a single AA battery – Precision glass lens, with LDI's beam shaping technology, produces a high quality nearly round laser point at 100 meters. – Rotary mode switch allows the user to instantly select between the Infrared and visible aiming capabilities or between IR aiming laser and IR Illuminator functions – Standard with a pressure pad switch and rotary ON/OFF switch – Waterproof to 20 meters – Windage and elevation adjustment knobs are protected from impact
