USNV 3X Lens Kit, Mil Spec Hard
Case, USNV-IR Spot Light Kit

The USNV-221 is one of the highest quality dual-tube/dual-eye night vision goggle available. It offers a true stereoscopic night vision image. The USNV-221 is US made, and utilizes a high quality Photonis-DEP image tubes. The unique patented design eliminates the need for interpupillary adjustment. The small size and weight of this unit makes it easy to carry. The USNV-221 features automatic brightness control, bright light protection, along with a powerful IR illuminator. The 221's Specialized multicoated optics provide extreme clarity in low-light situations. You can additionally purchase a pair of 3X Lens and easily convert the goggle into a powerful 3X Binocular. Ships with unit: A soft carry case, headmount, ops manual and battery.
