U.S. Night Vision manufactures tactical-grade night vision devices. Our products include goggles, monoculars, weapon sights and night vision devices.

Made in America: our night vision devices are known throughout the world for their quality and durability.

Our commitment to customer service will ensure your satisfaction.

PVS-7 mount, shown here, and other mounts are optional.

PASGT Tactical Helmet

Mil Spec (MIL-H-44099A) & NIJ Threat Level (IIIA)

- * NIJ Level IIIA
- * Ideal for Spec Ops and SWAT

The innovative design of our Tactical Helmet delivers maximum protection, comfort, and maneuverability. Exceeding military specification MIL-H-44099A and providing NIJ Threat Level IIIA protection, our helmet is superior to the PASGT (Personal Armor System Ground Troops) in form and function. Specifically cut and shaped around the ears, our Tactical Helmet provides optimal hearing so that agents will not be disadvantaged in hostile engagements. With superior shock absorption properties, and a three-point adjustment/suspension (which is offset from the helmet to protect from helmet deformation) our Tactical Helmet is simply the best ballistic helmet on the market today. Exceptionally comfortable, our tactical helmet is one of the strongest and lightest designs on the market today. Standard Features Ideal for Spec Ops, SWAT, and Tactical Personal Three point suspension system Interior shock absorption system Ergonomically fit Optimal ambient hearing Communication device friendly Adjustable headband Ballistic Coverage NIJ Threat Level IIIA
