The USNV-221 is the highest quality dual-tube/dual-eye night vision goggle available. It offers a true stereoscopic night vision image. The USNV-221 is U.S. made and utilizes high quality Generation 2 image tubes from DEP. The unique patented design eliminates the need for interpupillary adjustment. The 221 is compact and lightweight making it easy to transport. The USNV-221 features all of the benefits of U.S. made Generation 2 technology, such as; automatic brightness control, bright light protection, along with a high powered IR illuminator. The 221's specialized multicoated optics provides extreme clarity in low-light situations. The system ships as a 1x Goggle or 3X Binocular. Unit ships with: soft carry case, manual and battery.
