U.S. Night Vision manufactures tactical-grade night vision devices. Our products include goggles, monoculars, weapon sights and night vision devices.

Made in America: our night vision devices are known throughout the world for their quality and durability.

Our commitment to customer service will ensure your satisfaction.

This revolutionary optic delivers amazing speed and accuracy gains, uncompromised use of peripheral vision, and leaves no muzzle side operator signature

HOLoGraphic Diffraction Sight (HDS)

The HDS delivers critical speed gains for the initial weapon presentation, in multiple target situations.

EOTech 551

HOLoGraphic Night Vision System w/N Cell Battery

- * HOLOgraphic Diffraction
- * Enhance Your Aiming
- * Bloomless Target Area
- * Compatible w/GEN 1 and 2+
- * Featherweight

The new Model 550 HOLOgraphic Diffraction Sight (HDS) is now fully compatible with Generation I – 2I+ night vision intensifier tubes. A special night vision setting on the M550 allows the operator to immediately drop the brightness intensity of the holographic reticle to eliminate any "halo" affect and saturation of the night vision device. The M550 can be positioned behind night vision systems without any "bloom" of the target area. Now operators can combine proven night vision system with a superior Close Quarters Battle (CQB) sight to achieve greatly enhanced weapon aiming while in the night vision spectrum. *available to take AA lithium batteries
