U.S. Night Vision manufactures tactical-grade night vision devices. Our products include goggles, monoculars, weapon sights and night vision devices.

Made in America: our night vision devices are known throughout the world for their quality and durability.

Our commitment to customer service will ensure your satisfaction.

M-69 Mount PVS-14

A.R.M.S.® Throw Lever Mounting System

The Patented A.R.M.S.® Throw Lever Mounting System with Guaranteed On and Off repeatability. An adjustable height carrier with locators to prevent slippage horizontally or vertically during firings. A calibrated scale to assist the user in returning the carrier to a favored sweet spot. The most recent addition to our product line is the M69, an adjustable mount for the AN/PVS-14 Monocular Night Vision Device. This mount allows users of the PVS14 and Litton 983's to attach these pocket scopes to any rifle base and use them in conjunction with another optical device. Two thumb screws with integral self-locking systems and slots for easy removal. Tough, state-of-the-art coatings or solid stainless steel parts are used to prevent rust and corrosion. Non-reflective matte finishes. Positive locating surfaces to hold and locate the PVS-14.
