### Optional Accessories

USNV-IR Spot Light Kit

Built with high performance coated glass optics and dual Generation I image intensifier tubes, the USNV-211 binocular offers true stereoscopic night vision capabilities in a lightweight and ergonomic design. These are the first night vision binoculars to have built-in Bright Source Protection circuitry that safeguards the unit in the event of accidental exposure to bright light sources. The USNV-211 also includes an integral Infrared light source that provides long-range illumination in total darkness. (Such as in an enclosed room, etc.) A professional quality night vision binocular, the USNV-211 offers enhanced performance and reliability in a single package. Ships with unit, carry case, manual and batteries.
