

monocular

Part No- 000059

USNV-PVS-14A

The USNV-PVS-14A is the optimum night vision monocular for users who require a multi-purpose night vision device. This system can be used hand-held, weapons mounted, camera/camcorder adapted, or head/helmet mounted for hands-free operation. The PVS-14A has a variable gain control which allows the user to adjust the image brightness for use in varying light conditions. The addition of a 3x or 5x magnifier lens allows for long range observation and the built-in infrared illuminator enhances viewing in the darkest conditions. The newly redesigned USNV-PVS-14A operates on a single "AA" battery and is built to fulfill the most demanding applications.

Ships with: Monocular, Headmount, Transfer Arm, Military Soft Case, Shoulder Strap, Objective Lens Cover, Lanyard, Eye Cup, AA Battery, Lens Tissue & Ops Manual.

S P E C I F I C A T I O N S
