The USNV PVS-7 is the standard issue goggle supplied to the U.S. Military and its allies. With the use of a single high definition image tube and a dual eye configuration, the USNV PVS-7 provides an outstanding performance-to-cost ratio. It features simple user controls and fully automated image tube protection. This system allows the user to have complete freedom of movement while maintaining equilibrium and balance in a hands free application. The USNV PVS-7 also incorporates an infrared illuminator with a momentary and continuous on switching function. Infrared operation and low battery indicators are displayed within the user's field of view. The USNV PVS-7 comes complete with a lightweight, fully adjustable military head strap that allows for comfortable long-term use. A wide range of optional accessories include high magnification lenses, compass, infrared spot/flood lens and helmet mounting bracket for PASGT or MICH helmets. The USNV PVS-7 Comm Spec Goggle Ships with: System, Head-Mount, Military Soft Case, Batteries, Lens Tissue and Operators Manual.
