

# monocular

Part No- 000102 (Gen 3)  
Part No- 000206 (Com Spec)

## USNV-14

The "single tube / single eyepiece" approach to night vision is based upon the proven concept that independent use of each eye maximizes the ability of the user to operate under a wide range of low light conditions. This tactic enhances the user's field of view and also allows the user to retain full peripheral vision in the unaided eye. The unaided eye now works in conjunction with the 40 degree field of view offered by the night vision device. The USNV-14 can be hand held, attached to a standard PVS-7/14 headmount or helmet mount. The USNV-14 works with either a single AA or 3 volt lithium battery, offering more flexibility and a longer battery life. The integrated IR illuminator enhances the ability of the user to read maps and operate in confined low light applications.

**Ships With:** Monocular, Headmount, Transfer Arm, Weapons Mount, Military Soft Case, Shoulder Strap, Sacrificial Window, Demist Shield, Objective Lens Cap, Lanyard, Eye Cup, AA Battery Adapter, AA Battery, 3V Battery, Lens Tissue & Ops Manual.

### S P E C I F I C A T I O N S

Magnification: 1x	Eye Relief: 27mm	Continuous Operation: >40 hours
f-number: 1.2	Weight: 9.6 oz.	IR Illuminator Range: ~20 meters
Field Of View: 40 degrees	Voltage: 3.0 VDC	Dimensions: 4.2" x 2" x 2.5"
Dioptr Adjustment: -4 to +6	Power Source: (1) AA or 3V	Warranty: 2 Years

USNV-14B Mounted To Headmount

USNV-18 With 5x Military Lens

M-4 Equipped With USNV-14, EOTech 552 & Infrared Laser
