MICH Helmet
Part No- 000488

MICH Ballistic Tactical Combat Helmet MICH - (Modular Integrated Communications Helmet)

US Night Vision Corp. is proud to introduce the "MICH" Special Operations Helmet. Specifically developed to meet the rigorous demands of Military and Law Enforcement Tactical Teams, the MICH SOH features a High Ballistic Rating while still being light weight and comfortable with its low profile design.

Utilizing the latest technology in ballistic materials, the MICH SOH Helmet was designed to exceed the rating of the current MICH by providing maximum Level 3A protection (44 Mag. 240 gr. at 1400 FPS) and optimizing comfort and usage for long periods of operation.

The MICH SOH features include a fully adjustable four-way retention system and a seven pad suspension system that is removable for washing and custom adjustments. The reduced profile design also allows optimal peripheral vision and interface with tactical vests, ballistic goggles, night vision devices and communications gear.

PASGT Helmet
Part No- 000147

PASGT (Ballistic Helmet)

The innovative design of our PASGT Tactical Helmet delivers maximum protection, comfort, and maneuverability. Exceeding military specification MIL-H-44099A and providing NIJ Threat Level IIIA protection. Specifically cut and shaped around the ears, our Tactical Helmet provides optimal hearing so that agents will not be disadvantaged in hostile engagements. With superior shock absorption properties, and a three-point adjustment/suspension (which is offset from the helmet to protect from helmet deformation) our PASGT Tactical Helmet is simply the best ballistic helmet on the market today.

Helmet Mounts

PASGT Helmet Mount

Part No- 000228

MICH Helmet Mount

Part No- 000384

Our Military helmet mounts allow users to attach Night Vision Devices (NVD) directly to either the MICH (Modular Integrated Communications Helmet) or the PASGT (Personal Armor System Ground Troop) helmets. The helmet mount not only incorporates standard adjustments, it also has a flip-up/flip-down capability, that allows the user to move the NVD up and out of the way of the face.

Part No- 000431

MICH Adapter Plate

Our MICH adapter plate allows the user to switch to the MICH (Modular Integrated Communications Helmet) style helmet without replacing the entire mount.
