Lens, USNV-IR Spot Light Kit

The PVS-7B is the standard issue goggle supplied to the U.S. Military and its allies. With the use of a single Generation 3 image tube and a dual eye configuration, the PVS-7B provides outstanding night vision performance. It features simple user controls and fully automated image tube protection. This system allows the user to have complete freedom of movement while maintaining equilibrium and balance in a hands free application. The PVS-7B also incorporates an infrared illuminator with a momentary and continuous on switching function. Infrared operation and low battery indicators are displayed within the user's field of view. The PVS-7B comes complete with a lightweight, fully adjustable military head strap that allows for comfortable long-term use. A wide range of optional accessories include high magnification lenses, compass, infrared spot/flood lens and helmet mounting bracket. Ships with: Head-mount, Military Soft Case, Demist shield and a Manual.
