U.S. Night Vision manufactures tactical-grade night vision devices. Our products include goggles, monoculars, weapon sights and night vision devices.

Made in America: our night vision devices are known throughout the world for their quality and durability.

Our commitment to customer service will ensure your satisfaction.

IR mode and low battery warnings are fiber optically displayed within the user's field of view

Gen 2 Night Vision Monocular

USNV-121

Generation 2 Night Vision System

- * Generation 2
- * Durable Housing
- * Head Mountable

Optional Accessories

USNV Headmount, Camera Adapter 121, Hard Case Commercial, USNV 3X Lens, USNV-IR Spot Light Kit

The USNV-121 Monocular uses a U.S. made Generation 2 image tube in a lightweight and compact design. The 121 features a high power IR illuminator for operation in extreme low light environments. Automatic Brightness Control and Bright Source Protection are standard in this system. In addition, IR mode and low battery warnings are fiber optically displayed within the user's field of view. Optional accessories include fully adjustable headgear for hands-free operation, camera/video adapter, 3x lens and a weapons mount. The USNV-121 is one of the finest and most versatile compact monocular systems available today. Whether hunting, hiking, boating or viewing nature, a night vision monocular can give you the feeling of being home on the range, no matter where you are.
