*U.S. Night Vision manufactures tactical-grade night vision devices. Our products include goggles, monoculars, weapon sights and night vision devices.*

*Made in America: our night vision devices are known throughout the world for their quality and durability.*

*Our commitment to customer service will ensure your satisfaction.*

The ITAL laser is designed for rugged military and law enforcement applications. It offers a very low profile that allows it to be used on flat top rifles equipped with optical scopes or night vision equipment. An IR version is available as well (LDI # 19002-NSN 1005-535-5506). – Complies with MIL-STD-810 – ITAL when mount on a top rail or bottom rail is inline with the barrel of the weapon – Laser mounts on Picatinny, NATO 1913 and Knight Armament Rails – No tools required – Operates using a single AA battery – Standard with SPP (635nm) or IR (835nm) diodes are available for Law Enforcement & military only. – Supplied with a standard pressure pad switch and rotary ON/OFF switch – Windage and elevation adjustment knobs are protected from impact – Windage and elevation adjustments can be made in precise 0.4 milliradian clicks
